Or, How To Get Books and Articles From Other Libraries

CSU+ is a new resource-sharing system that allows students, faculty, and staff to request books from any of the 23 California State University libraries and have them delivered to their home campus within 2-5 days. CSU+ replaces the current Link+ system.

Search CSU+

ILLiad

Interlibrary Loan allows you to borrow books, articles, dissertations, and more from libraries worldwide.
Go directly to ILLiad

WorldCat

In WorldCat, you can search the collections of nearly 17,000 libraries worldwide to find a library that has the item you're looking for.

Link+

You can borrow items through Link+ that are not available at the San José Public Library (SJPL) using your SJPL card.

Analysis of vehicle positioning accuracy requirements for communication-based cooperative collision warning

SE Shladover, SK Tan - Journal of Intelligent Transportation ..., 2006 - Taylor & Francis

This article describes an analysis of the use of vehicle positioning and wireless communication technologies to implement collision warning systems without using direct ranging sensors. If the positions and velocities of the vehicles can be known to sufficient accuracy and can be communicated to neighboring vehicles, each vehicle can identify whether it is in danger of colliding with any other vehicle. The probability that useful ...
